VTS95 TRACKED SHREDDER

VTS95 TRACKED SHREDDER

The McCloskey™ VTS95 is a track mobile shredder capable of effectively and reliably shredding virtually any type of material. Designed to meet the unique demands of operations in which the incoming material varies greatly in terms of size and composition, the VTS95 offers an 8 or 10 knife layout.

SPECIFICATIONS

Overall dimensions with hopper (LxWxH)	370" x 116" x 138" (9398 x 2945 x 3500 mm)
Weight	38.6 US Ton (35,017 kgs)
Loading height without hopper	138" (3500 mm)
Cutting Area	95" x 79" (2410mm x 2000mm)
Diesel Motor	CAT C15 540hp (397 kW)
Discharge Height	136" (3450mm)

FEATURES

1. Low load height, allowing easier loading with a smaller loader. A mounted ladder on the cutting table ensures good access.
2. Conveyor belt speed can be precisely adjusted to suit the particular waste being processed.
3. Tracked machine allows for easy mobility throughout site. Machine can also be moved during operation.
4. Cutting chamber has a 10,000 hour lifetime - choose from 8 or 10 knife layout.

► LARGE THROUGHPUT

Throughput can be as high as 110 tons per hour depending on the type of input, number of knives in the cutting table, and the loading procedure.

The interaction between rotating the knives on these two shafts running asynchronously and in both directions ensures that the input material is constantly in motion, thus preventing bridging and providing maximum shredding capacity.

► CUTTING TABLE

Number of shafts	2
Rotation Speed	16-41/27-56 rpm
Number of Knives	8 or 10
Number of Counter Knives	16 or 20
Cutting Area (l x w)	95" x 79" (2410mm x 2000mm)
Weight (complete machine including magnet)	8 knives - 38 US Ton (34,473kg) 10 knives - 39 US Ton (35,380kg)

► CAPACITY

Household Waste	up to 110 TPH
Demolition Wood	up to 77 TPH
Industrial Waste	up to 39 TPH
Bulky Waste	up to 55 TPH
